---

O.k. - just let me know what you decide. I may be able to call in to some of this Wednesday's meeting (about the 1st hour and a half).

-Jennifer

Jennifer, I think that any meeting in Seattle would be a one day meeting. However, there are some complications - there is a CAG meeting on the 14th and the CAG has requested that

(b) (6)

(h) (6)

for Portland even though much of our technical support team (with the exception of DEQ) would prefer Seattle. We will probably talk about this more on Wednesday afternoon. Whatever we decide, I want to work around your schedule. I really want you at these meetings.

Eric

RE: Upcoming Meetings

Eric,

(b) (6)

so

s call

(b) (6)

will be around tomorrow and Wednesday morning, so maybe I can get some thoughts together for you.

Would the meeting on the 14th be a one day meeting in Seattle? I think I can make it as long as others from DEQ are driving up and I am back by

(b) (6)

(h) (6)

-Jennifer

Jennifer, I am sorry you were unable to attend the Roll-Out meeting. I want to make sure that you can attend any subsequent technical meetings that relate to eco risk or the food web model. Right now, we are planning on having an internal conference call next Wednesday afternoon (March 7th) to begin thinking about data gaps and the types of analyses necessary to help identify them. We are planning on having a meeting with the LWG on March 14th - this would probably be a number of concurrent meetings on a range of technical topics. There is clear support for having this meeting in Seattle. However, before we settle on a Seattle location, I want to see if that would work for you.

Thanks, Eric
